

HY-03 (113pcs) \$134

Size: 320*420*160mm

Material: 1000D flame retardant nylon(flame retardant efficiency CA117)

Product Features

Fire CCC Certification

The products in the Fire Supplies Module are fire 3C certified and comply with relevant fire safety standards to ensure their quality and reliability, which provides a reliable tool for extinguishing fires and escaping in emergencies.

Multi-scenario application

Suitable for home, office, school, hotel and other places.

Fire-fighting products

Fire-fighting products	Specification	Quantity
Fire Fighting Self-Rescuing Breathing Apparatus	TZL30	1pcs
Water mist fire extinguisher	525ML	1 bottle
Nano Fire Blanket	1.2M*1.2M	1pcs
Lightweight safety rope	9.5M*10M	1pcs
Multi-functional waist axe	RYF285	1pcs
LED strong light torch	2.5CM*13CM	1pcs

Tools

HY-04 (151pcs) \$45

Size: 300*220*250mm

Material: ABS panel + aluminium frame bar

Product Features

Lightweight and Durable

Made of lightweight aluminium alloy, easy to carry and durable at the same time.

Safe and Protected

The sealing device can be used to prevent moisture and contamination, and provide material safety protection.

Eye-catching red colour

It can help people to find first aid medicines and medical resources quickly and provide timely rescue and first aid in emergencies through high visibility, quick identification and psychological comfort.

HY-07 (123pcs) \$288

Size: 320*420*130mm

Material: 600DPVC mesh

Support 7*24 hours rescue positioning. Eight modules, taking into account the medical, warmth, survival, communication, lighting, protection and food, enough to support the survival of two people for seven days.

Product Features

One key rescue (optional)

BeiDou, GPS dual-mode positioning, SOS emergency button, one key alarm call, the device supports IP67 waterproof.

Modular design

Eight modules are designed, each partition module is an independent unit that can be connected or disassembled as needed. This modular design makes the system more flexible and allows users to combine and adjust according to actual needs.

Floating airbag (upgraded model)

The fully airtight design makes the bag a completely sealed chamber that provides approximately 20kg of buoyancy and can be used as a buoyancy aid if necessary.
